Step-by-Step Guide to Buying with Cryptocurrencies

■ This guide is for beginners who have never used cryptocurrencies.

With images and quick tips, you will learn how to buy music on the website using digital currencies such as USDC, USDT, or POL (Polygon).

■ Introduction

To buy music on the site, you will need a digital wallet (such as MetaMask or Coinbase Wallet) and cryptocurrency balance. We recommend using the Polygon network, which is cheaper and faster.

■ Download MetaMask	https://metamask.io/download
■ Create Coinbase Account	https://www.coinbase.com

■■ Step by Step

1■■ Access the site and choose the track you want to buy. Click the **Buy** button.
2■■ A payment modal will open. Choose to pay with cryptocurrencies (Coinbase Commerce).
3■■ Select the blockchain network. Choose **Polygon** for the lowest fee.
4■■ Open your wallet (MetaMask, Coinbase Wallet, or another) to connect.
5■■ Confirm payment details in your wallet. Click **Confirm**.
6■■ Wait for the blockchain to process your transaction. This may take a few seconds.
7■■ On the website screen, the message **Verifying Your Purchase** will appear.
8■■ Once payment is approved, a success message will appear. Click the **Download Now** button to download your music.
9■■ Done! Your purchase has been successfully completed.

■ Final Tips

- Always keep some MATIC/POL coins to pay for network fees.
- Save the music as soon as you download it, as the link may expire.
- If the transaction gets stuck, wait a few minutes until confirmation on the blockchain.

■ Mini Glossary

Wallet: App that stores your digital coins.
Exchange: Website where you buy digital coins with regular money.
USDC / USDT: Stable digital currencies (~1 USD each).
Gas fee: Small fee paid to confirm transactions on the blockchain.
Seed phrase: 12/24 words that recover your wallet. Never share it!

■ Security Tips

Never share your seed phrase or password.
Always check if the site starts with https:// and has a padlock icon.
Test with a small amount before sending everything.
If you send coins to the wrong address, there is no recovery.
